2024 Frank M. Norfleet Forum
for the Advancement of Health

PROMOTING SAFE AND STABLE RELATIONSHIPS:

The Power of Positive Childhood Experiences
on Resilience Against Toxic Stress

Department of Pediatrics

FRIDAY, APRIL 12, 2024

7:45 AM – 2:55 PM

The National Civil Rights Museum
450 Mulberry Street • Memphis, TN 38103

THE UNIVERSITY OF TENNESSEE

HEALTH SCIENCE CENTER

HEALTHY TENNESSEANS. THRIVING COMMUNITIES.

COMMUNITY FOUNDATION

OF GREATER MEMPHIS

FORUM FOR THE ADVANCEMENT OF HEALTH

OVERVIEW

The Frank M. Norfleet Forum for the Advancement of Health was established at UTHSC in 1979 through a designated fund within the Community Foundation of Greater Memphis. The mission of the Norfleet Forum is to focus on the improvement of the health status of the citizens who reside in Memphis/ Shelby County, the State of Tennessee, the nation, and the world, through concern for effective health policies and organization. The 2024 Norfleet Forum focuses on promoting safe and stable relationships – the power of positive childhood experiences on resilience against toxic stress for the betterment of our community and improved patient outcomes.

EDUCATIONAL OBJECTIVES

- Identify the signs of Adverse Childhood Experiences (ACEs) and how cumulative toxic stress and the resultant physiologic responses can be long-lasting to the child, family, and others.
- Define and recognize the types of traumatic events that result in childhood toxic stress and overwhelm a child’s or adolescent’s ability to cope.
- Describe evidence-based approaches, such as trauma-focused cognitive behavioral therapies to address child traumatic stress.

DESIRED OUTCOME

The goal of the 2024 Norfleet Forum is to convene a group of local and nationally renowned experts to discuss the various methods and strategies that healthcare professionals can implement in their daily practice to address and improve the social determinants that affect a child’s health and behavior. The forum’s format is designed to provide interactive educational activities that enhance knowledge and allow participants to discuss evidence-based data related to adverse childhood experiences (ACEs). Panel discussions, along with question-and-answer sessions that include collaborative sharing of information and research, as well as networking with other healthcare professionals have shown to improve participant knowledge and competency.

TARGET AUDIENCE

Physicians, Community Healthcare Providers, Nurses, Nurse Practitioners, Fellows, Residents, Medical Students, Social Workers, Child Psychiatrists / Psychologists, and anyone who works with children and their families

KEYNOTE SPEAKER

Robert Sege, MD, PhD, FAAP

Director, Center for Community-Engaged Medicine
Co-Director, Stakeholder and Community Engagement for Tufts Clinical and Translational Science Institute
Professor, Tufts University School of Medicine

Robert Sege, MD, PhD, FAAP is a pediatrician and director of the Center for Community-Engaged Medicine at Tufts Medical Center, and a Professor of Medicine and Pediatrics at Tufts University School of Medicine. Dr. Sege is nationally known for his research on effective health systems approaches that directly address the social determinants of health. He has served on the AAP Committee on Child Abuse and Neglect and on the AAP Council on Injury, Violence, and Poison Prevention.
